

Health & Safety Statement

Within the company, Health, Safety and the Environment have always been a prime management consideration. The company recognises its duties under all governing Health, Safety & Environment Legislation and acknowledges that these responsibilities rank above all activities.

To this end it is the intent of the company to ensure that everything reasonably practical is done to prevent personal injuries and illness, and to maintain a safe and healthy work environment.

In the conduct of its business, the company has always had concern for Health, Safety and Environment standards with regards to the community at large who may become involved.

European Waste Solutions Limited has been built-up to ensure that good working practises and standards are developed, maintained and improved, where possible, by a combination of the best professional, technical and medical advice available to achieve our desires objectives, which are:-

To create and maintain high standards for all working environments by implementation of statutory requirements and taking into to consideration other relevant accepted standards of a good working practise.

By providing systems of work that are, so far as reasonably practicable without risks to health.

To advise all involved of the Health & Safety standards of their work by instruction, ensure that all understand and are able to fulfil individual duties, including their duties to; co-operate and act responsibly and to do everything to prevent injury to themselves and other persons.

Ensure that safety standards are relaxed in design.

Routine monitoring, maintaining vigilance on all matters relating to Health, Safety and the Environment to ensure the efficient and safe conduct of the company's business.

We encourage participation and involvement to considering ways and means to improve Health, Safety and Environment.

Provide customer with the necessary support by having available all the relevant specialists and professional personnel to ensure that the safe conduct of the company's business.

Consider the interests of the local community and neighbouring establishments when applying principles.
